

GiveBig: Add a Video

Using the GiveBig platform, you may add a video to your Organization or Fundraiser page. Those videos must be hosted by a video sharing website like YouTube, Vimeo, Viddler, etc. and the video must be enabled to share. You can then copy the embedded code from the video share site, then paste it into your Give Big page using the Source area.

Video: How to add a video

Step by step: How to add a video

If you have a video hosted on YouTube or another video hosting site you may embed it into your 'Description' area. To do this, you need to:

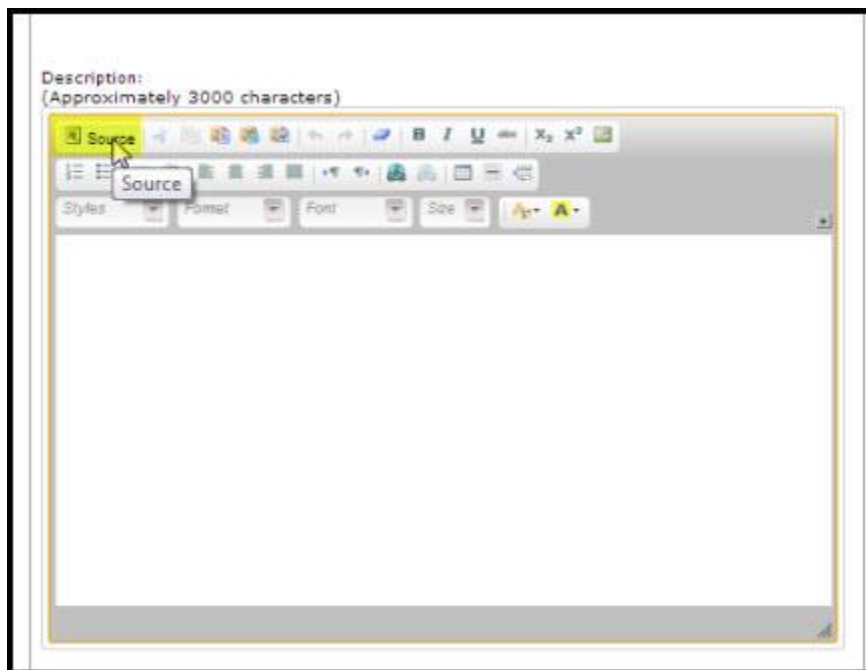

1. Locate the code you need to use on your video hosting site, like in image below:

2. Copy the Code, as shown in image below:

3. Go to your organization's profile description area and select 'Source'

4. Put your cursor where you want to place the video and paste the code there. Click 'SAVE' button.
